

Press Release 27 April 2009

RadioAscope.com

Produced By

RADIOBangkok.net

The ASEAN Council on Petroleum together with Bangkok Exhibition Services (BES) have selected RadioBangkok.net to launch a unique online Radio Station which has just gone live this week, Monday April 27th 2009 - RadioAscope.com

In the run up to the major conference and exhibition in November, the station will feature in depth interviews with all the major key players in the industry and accross the region, cuminating in 3 days of 24 hour live broadcasting during the event

David Aitken Managing Director of BES said " we see this as a major advantage in communication with everyone involved, its the next best thing to actually networking and for those that exhibit and visit the Exhibition and Conference they will have an excellent grounding and understanding of the industry and all of the people involved"

Bill Hammerton, Executive Producer of RadioBangkok.net said " we are delighted to be involved in this major undertaking, there has never been anything poroduced in such depth and with such coverage as RadiioAscope.com before, it will build into a mjaor resource over the coming months as we get ever closer to the main event in November. We will feature all the leading executives and reserch people together with new technology and companies involved in the Oil & Gas Industry"

Tune in now to get the full background directly from the leading players, In addition to being able to listen 24 hours day 7 days a week all interviews are available immediately as Audio on Demand or as downloadable Podcasts. You can subscribe through Apple ITunes or your favourite RSS reader, such as Google, Yahoo and many more.
